PTT Communication Options
• One-to-one
• PTT between two team members
• One-to-many
• PTT group conversations for two or more users
• PTT Channel Environment
• Channels allow for a group PTT conversation to happen in a predetermined channel that you can connect in and out of at any time.
• Auto-connect to channel
• Web based Dispatch
• Allows a dispatch manager to have an over-the-top map view of drivers and can instantly start a PTT conversation from the map.
